SKILLS

Technical Skills: Docker, RESTful APIs, Redux, CI/CD, Responsive Web Design, MongoDB, Express.js, Node.js, Git, React.js, JavaScript, CSS3, HTML5, Tailwind CSS, NextJS, React Native, cpp

Soft Skills: Adaptability, Time Management, Effective Communication, Problem Solving

EXPERIENCE

Kickbegin | *Software Engineer*

Jan 2025 - Mar 2025

- Developed scalable web applications using modern JavaScript frameworks
- Implemented RESTful APIs to enhance system integration
- Optimized application performance through code refactoring and testing
- Collaborated with cross-functional teams to deliver agile software solutions

PROJECTS

Lenskart Clone | *React.js, Node.js, Express.js, Chakra UI, MongoDB, JWT, bcrypt*

- Github Repo : https://github.com/MohammedGhouseP/lenskart_clone
- Developed a full-stack e-commerce application using React, Node.js, Express, and MongoDB, replicating key features of Lenskart.com.
- Implemented secure authentication and authorization with JWT sessions, BcryptJS password hashing, and form-level validation.
- Engineered a dynamic product catalog with multiple filters, price sorting, combined filter and sort logic, and paginated display.
- Built interactive shopping cart and wishlist modules supporting add/remove items, quantity updates, and one-click wishlist-to-cart transfers.
- Integrated coupon discount functionality, payment gateway for secure checkout, and a responsive UI optimized for desktop, tablet, and mobile devices.

Voyager Vibes | *React Native, Firebase*

- Github Repo : https://github.com/MohammedGhouseP/VoyagerVibes/tree/main/VoyagerVibes
- Contributed to the development of a cross-platform mobile application using React Native for discovering and booking travel and dining experiences.
- Implemented user and admin registration with secure authentication and real-time geolocation tracking using Google Maps API.
- Integrated Razorpay for seamless in-app payments and developed chat functionality for user communication with restaurant owners.

- Handled CRUD operations for menu items, orders, and categories, ensuring real-time updates and smooth data synchronization with Firebase.
- Collaborated with a team to design a dynamic, user-friendly interface, focusing on exception handling, validation, and overall app performance.
